HIGHLIGHTS

BEAUTIFUL APPEARANCE – has the texture of nature stone and strong three-dimension sense and various colors and types.

LONG SERVICE LIFE – the service life can be as long as 50 years.

LIGHT WEIGHT – the weight is just 1/8 of the clay tiles and cement tiles.

EASY CONSTRUCTION – can be easily bent or cut for installation.

ENERGY-SAVING – the heat radiation rate is 1.4-7 times of that of ordinary roof material and the tiles are recyclable.

PRODUCT SPECIFICATION

Stone coated metal roof tiles is produced by adopting high technology. It is made of galvanized steel plate with excellent anticorrosion performance as base plate, acrylic resin with strong weather ability as binder, and new advanced roofing material with colored natural grit as surface layer. Due to its beautiful appearance (bright color), light weight (about 2.7kg/piece), durability (50 years of useable), and environmental protection, it has become the mainstream product of international roofing materials in recent years. It is suitable for wooden trusses, steel frames, concrete and other roofing. It is especially suitable for the renovation of slopes and roof renovation works.

BASIC INFO

Material	Synthetic resin
Type	Bent Tiles
Shape	Customized
Size	1.340 x 420 mm x 0.4 mm
Color	Customized
Model	stone coated metal roofing tiles
Transport Package	Wooden Pallet
